

Benefits of ArchivesSpace Membership

ArchivesSpace is free to download and use, but has a membership model to promote sustainability. The most important reason to become an ArchivesSpace General Member is to ensure the continuing development and sustainability of the application. Membership protects your significant investment of staff time and other resources by ensuring that your archives information management system will be around and continuing to meet your needs for a long time.

Membership also gives you a voice in the community, and the ability to advocate for the future direction of the application. ArchivesSpace members are eligible to serve on governance and working groups and participate in voting for development priorities.

Lastly, membership provides assistance in the use of the application. In addition to providing access to the user manual and training resources like video tutorials, it also connects you with an engaged community of ArchivesSpace users and enables you to benefit from the wide range of expertise available.

Members engage in break-out discussion sessions during the Boston Regional Forum, May 2018.
