# The Palace Project

## A new digital platform that puts libraries first

The Palace Project is rooted in our commitment to a library-led digital future.

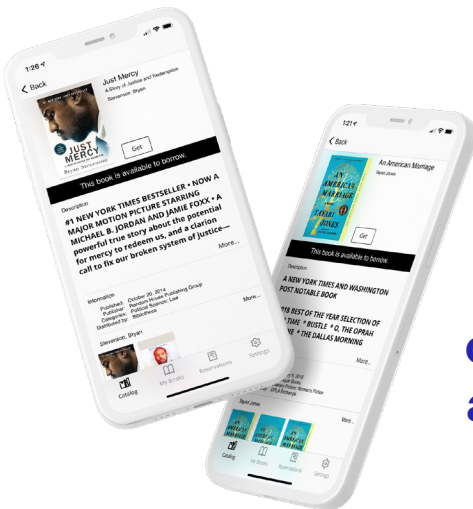

### The Palace Project objectives:

- **Bolster** the direct relationship between libraries and their patrons
- **Give** libraries greater control over acquisition and delivery of e-content
- **Advocate** with publishers on behalf of libraries
- **Protects** patron privacy

The library really  
is a palace. It  
bestows nobility  
on people who  
otherwise couldn't  
afford a shred of it.

- Eric Klinenberg (author)

**Community Engagement Tools  
In Your Library, For Your Community**

 biblioboard

**Indie Author  
Project**

Expand your community engagement and turn your patrons into creators. BiblioLabs lets libraries and their communities create, share, and discover original and unique content.

**We work with our members and users**  
across the globe to foster and fund  
innovation, design vital programs and  
services that increase the value and impact  
of knowledge communities, and we develop  
and sustain technology solutions for all  
collections-holding institutions.
